Forecast For Tayside, Central & Fife
Issued by Met Office Aberdeen
at 0400 on Sunday 13 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
East warm, dry, sunny. West cloudier with some patchy rain.

Today:
Warm to hot in Angus, Dundee and Fife, with sunny spells increasing. Highest temperatures around east coasts. Mainly cloudy in Central and western Tayside with some some patchy rain, mainly at first this morning and again towards early evening. Maximum temperature 25 deg C (77 deg F).

Tonight:
Rather cloudy evening with occasional rain. This passes to the east towards dawn, as clear spells and a few isolated light showers follow from the west. Minimum temperature 10 deg C (50 deg F).

Monday:
Much fresher day with temperatures well down from Sunday. Many staying dry, but a few light showers brought on fresh westerly winds, chiefly to western parts of Central and Tayside. Maximum temperature 17 deg C (63 deg F).

Outlook for Tuesday to Thursday:
Tuesday mainly dry and bright. Rain spreading to west late in day and overnight, before clearing eastwards Wednesday. Thereafter showers and brighter spells.
